

The European Network of Crystal Growth (ENCG), the Institute Chimie-ParisTech (ENSCP), the Institute of Physico-Chemical Biology (IBPC) and the French Committee for Crystal Growth (CFCC-AFC) are pleased to welcome you in **Paris, France**, from Wednesday, **July 20th**, to Saturday, **July 23rd, 2022** to attend the **3rd European School on Crystal Growth (ESCG3)**, which will be held at the **ENSCP and IBPC**, in the **Quartier Latin** district.

Following up with ESCG3, the **7th European Conference on Crystal Growth (ECCG7)** will be organized from Monday, **July 25th**, to Wednesday, **July 27th, 2022**, at the **Novotel Paris Est Conference Center**.

ESCG3 will implement lectures, practical works on computers and demonstrations on real equipments in all crystal growth fields: theory, modelling and numerical simulations, bulk crystals, advanced *in situ* observation and characterization techniques, thin films and epitaxial growth, biological crystallization.

You are most welcome to attend ESCG3 !

The School Chairs

3rd EUROPEAN SCHOOL ON CRYSTAL GROWTH
20 - 23 July 2022

Hosted by

Co-organized by

Pedagogical Committee

Akamatsu, Silvère (INSP, Paris)
Aqua, Jean-Noël (INSP, Paris)
Bonneté, Françoise (IBPC, Paris)
Brachet, Franck (IBPC, Paris)
Fornari, Roberto (Parma, Italy)
Grossier, Romain (CINaM, Marseille)
Loiseau, Pascal (ENSCP, Paris)
Mangelinck-Noël, Nathalie (IM2NP, Marseille)
Ménaert, Bertrand (Institut Néel, Grenoble)
Plapp, Mathis (PMC, Palaiseau)
Prellier, Wilfrid (CRISMAT, Caen)
Spano, Monika (IBS, Grenoble)
Tallaire, Alexandre (ENSCP, Paris)
Veber, Philippe (ILM, Lyon)
Velázquez, Matias (SIMaP, Grenoble)
Vizman, Daniel (Timisoara, Romania)
